

A New Day for Day Services

Sara Murphy, TransCen, Inc.

Thursday, Nov. 13, 2014 9:00am-4:00pm

North Bay Regional Center
25 Executive Court, Napa

- Although the idea of *Integrated Employment* is gaining ground across the country, many do not see this as a viable option.
- To eliminate service gaps and encourage *everyone* to pursue employment, TransCen, Inc. established WorkLink, a wrap-around program that braids “Medicaid-waiver day services” with VR-funded Supported Employment.

At *WorkLink*, employment is the primary goal. A flexible, hybrid approach allows support plans to be “built to order.” Utilizing customized employment methods to place job seekers, *WorkLink* focuses “day services” on employability.

In this one-day workshop, Sara Murphy will demonstrate how to create meaningful, individualized services that encourage employment and support people at work and in all aspects of life-

- case examples and strategies for braiding program supports and managing wrap-around, community-based services.
- Participants gain a new vision for day services and programmatic tools and ideas that their organizations can implement.
